

'Daddy' Flynn Will Teach Tulsa to Laugh and Live Long

All Signs Point to a Record Attendance on Health Drive

"Dad" Believes Tulsa Will Make Better Showing Than City of Similar Size.

IS MONEY AND HAPPINESS

Campaign Will Mean More to Magic City Than Opening of Glen Pool Oil Field.

Can You Do This?

"Daddy" Flynn Says

The first exercise to take is a smile.

Old age is a farce. No man ought to call himself old until he is at least 40.

If I were as bald as some men I'd paint a hairy scene on my head. We must have hair.

Get no introduction the body can get away with.

Don't chew the rag, but chew your food.

Don't ask God's blessing on vinegar and pickles. Do you think your stomach can digest pickles?

We can get drunk on too much food as well as on intoxicating liquors.

Work never yet made anyone healthy. It takes exercise.

There's nothing the matter with your religion. It's your body.

The only question now about "Dad" Flynn's health revival is How Big?

After nearly 200 business men of Tulsa were held under the spell of his talk at the City Club Saturday morning, when he made them think before the various organizations and the schools of the city during the past week, there is no doubt but what the health revival that opens tomorrow night at the high school auditorium will be the biggest thing that Tulsa has had.

It will mean more in dollars and cents and real health to Tulsa than anything else not excepting the discovery of the Glen pool.

"Dad" says he has found that the attendance at his lectures is relative to the culture of the city. Intelligent people think and when it is pointed out to them, do not fail to understand the importance of health, and there is no doubt but what Tulsa is intelligent and concerned about the individual as well as the public health, says "Dad."

Business Men Turn Out.

The attendance at the meeting of the City Club Saturday could any thing in any city under \$50,000 that he has lectured in, and "Dad" feels like the high school auditorium will not be large enough to hold those who want to get in.

And "Dad," when he heard about the inquiries that had come from many sources, flashed that famous Iron smile of his and exclaimed:

"It will be the biggest and best on record."

It was really astonishing to know how the coming of this virile, magnetic man and the problems of his message had caught the popular imagination.

"How does he do it?" asked one of the committee.

"If we knew how we'd be 'Dad' Flynn ourselves," said another.

And so they agreed that the important fact is: He does it, and therefore the situation must be met.

"Dad's" announcement that he would put on a big campaign and follow it with an ordinary period of rest has wide ramifications of interest.

Business men—heads of big organizations, employers of great numbers of men and women, as well as those of lesser establishments—were unusually appreciative.

See Big Benefits to Business.

They see in the campaign a direct benefit to their business, because more efficient employees, because health makes efficiency.

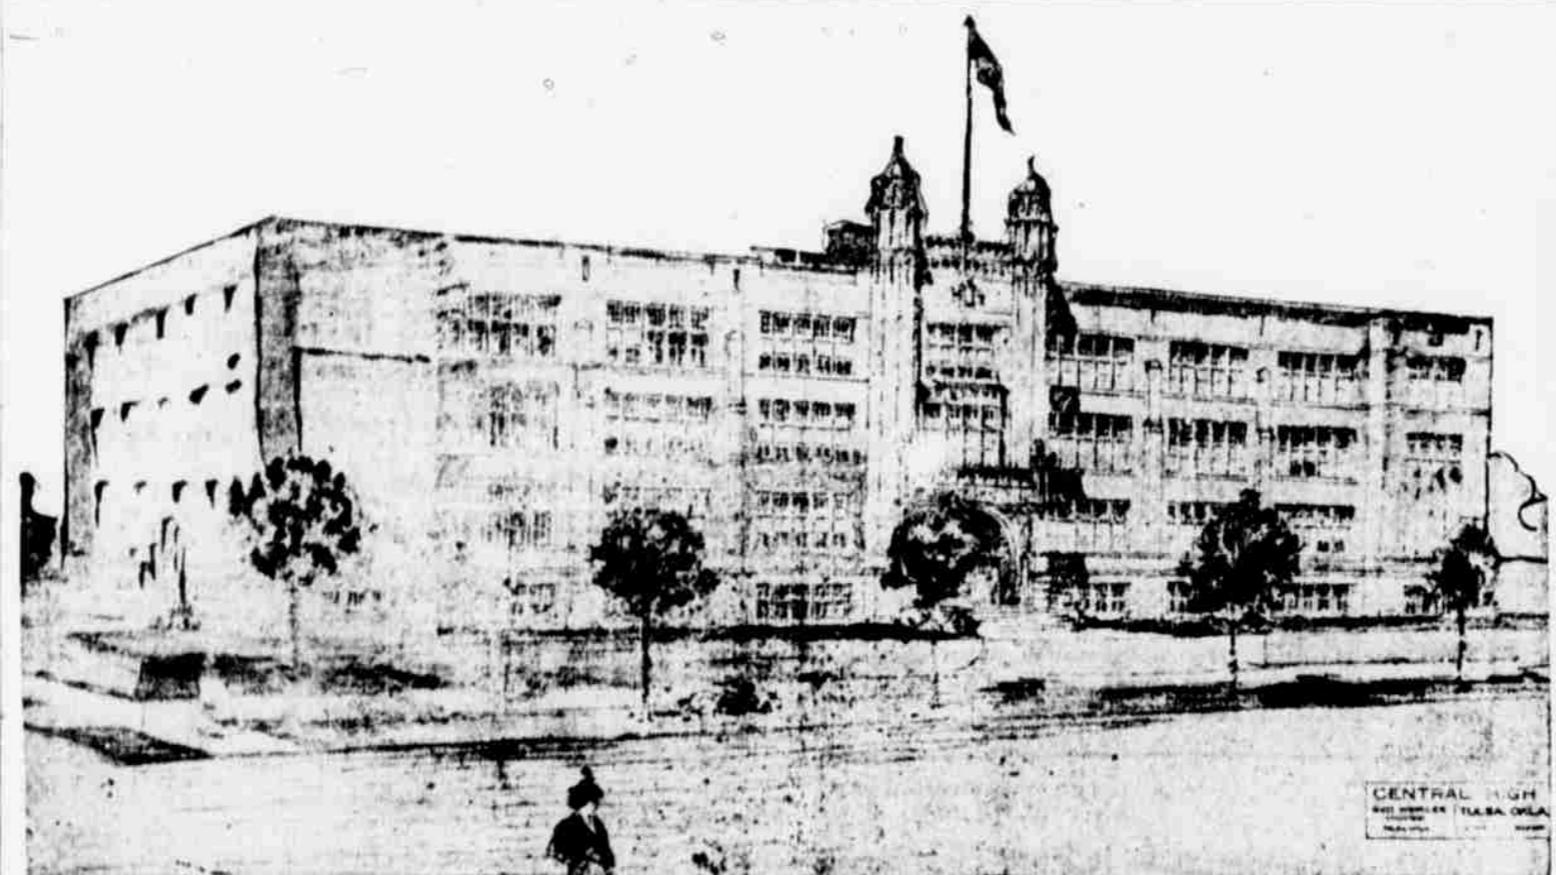

Clubwomen were intensely interested. The committee had a wealth of evidence on this score.

They have read about the immense

The Apostle of Health

Where Health Revival Will Be Held in Tulsa

"Dad" Flynn's health lectures will be given at the High School auditorium at 8 o'clock each night and one afternoon lecture will be held as announced in the program on this page. The school board offered the use of the auditorium to "Dad" Flynn following his lecture to the high school students Friday morning, when he made them think seriously about the simple principles of health and happiness. The high school building is centrally located at Sixth and Cincinnati streets, and has sufficient seating capacity to accommodate the crowds.

Substitute for Pills.

This helps weak back and kidney troubles. It's a simple exercise and has far reaching results to "Dad" will explain at his lecture and at the high school auditorium and classes at the chamber of commerce auditorium.

and his subject in eastern and southern states not only formidable figures showing attendance at his lectures, but also the intimate testimonials of leading men—officials, ministers, attorneys, business men and physicians.

A few of the latter, which played their part in influencing the committee to urge Mr. Flynn to come to Tulsa in order to increase this community's war efficiency, are given herewith:

By W. D. DAVIS

Mayor of Fort Worth, Texas. Having noted the improvement in those who have been following the instructions of "Dad" Flynn since he was here in January, I wish to recommend him for what he is doing in leading men and women into same and reasonable methods of living.

His visit to Fort Worth has resulted in an immense amount of good and the whole country. His lectures are all the time extending their work and urging others to follow his teachings. In this manner the scope of the work is enlarged and permanent results are obtained.

We are grateful to have Mr. Flynn with us, grateful for the good he has done and very hopeful for a continuation of the right living system that has come as a result of his doctrine. We would like to have him with us again at any time and will welcome him with open arms.

By DR. GEO. HAMILTON COMBS, Minister of the Independence Board, Xavard Christian Shrine, Kansas City. In the beginning of last year, from without, says only Billy Sunday, has left a larger and most lasting impression on Kansas City than W. E. Flynn.

His health propaganda here reached the dregs of a crusade. So minute is his personal life, so upright and energetic in every way does he move, every cent he makes now attracts those who not only capture his imagination in a city but powerfully affect his soul.

Whatever we thought of him we now realize the genuine earnestness and conscientiousness of his words about his condition. We Flynn cannot be compared with any other man living or dead; he is in a class by himself.

Long live "Daddy" Flynn!

"Daddy" has earned the title of the "Youngest Old Man in America," and when you see him Monday night you will swear he is not a day older than 40. He says anyone who dies before he is 40 years old ought to be hanged. Hardening of the arteries and high blood pressure are causes of most deaths after 40. The cause and cure of these troubles will be handled very thoroughly and scientifically at his lectures and courses.

One reason why "Daddy" Flynn, "somewhere in the sixties," is the youngest old man in America, is "Sweetie," "Sweetie" is Dad's wife and she makes him like his exercise and watches his diet and when Dad calls for a pickle or a pork chop or a green olive, her frown is sufficient to murder the thought. "Sweetie" knows as much about the principles of health as they concern womankind as "Dad" does about the men. They are shown in the cut taking exercise together in the general plan of life to live longer will be happier.

BY GEORGE H. STONE, President Tacoma Commercial Club and Chamber of Commerce.

Mr. Flynn accomplished a splendid work in the restoration and preservation of the health of those who came under the influence of his doctrine. We would like to have him with us again at any time and will welcome him with open arms.

For months even years, we may have felt that instruction along these lines to be one of the greatest needs of the community, and are now prepared to endorse without qualification the good work introduced by "Dad." Our greatest desire is to have some perpetuated under the influence of this competent lecturer that will adhere strictly to the rules laid down by him.
